

ADMISSABLE EVIDENCE

RELIABILITY

The testimony or object is proven reliable. like DNA evidence supported by a forensic science technician.

RELEVANCE

The evidence effectively proves or disproves a fact of the case but not necessarily innocence or guilt.

INADMISSABLE EVIDENCE

MISLEADING

Any evidence that diverts the jury's attention away from the central premise of the case.

HEARSAY

A testimony made outside of the court used to prove the truth of a presented idea. A witness testimony must be firsthand.

PRIVILEGES

Evidence that arose from a privileged informational source.

CRIMINAL HISTORY

The mentioning of prior crimes unrelated to the current case.

EXPERT TESTIMONY

Only an expert can give expert testimony. The court disallows "lay" witnesses from making expert testimonies..

UNFAIRLY PREJUDICIAL

Evidence that arouses an emotional reaction from the jury without providing the appropriate material information.

IRRELEVANT INFORMATION

The evidence doesn't prove or disprove any facts of the case.
